

## **Pupil Premium Allocation 2016 – 2017**

Our Pupil Premium Allocation for the period April 2016 to April 2017 was £26,980. This has been used to support eligible pupils with school trips, speech and language therapy, emotional behaviour support and purchase or repair of equipment which enabled them to take part in enrichment activities. A proportion has been used to provide staff training in areas of specific need to eligible pupils. Some has been spent providing learning mentorship, social skills and family support.

The impact of this funding on targeted children is as follows:

- Improved behaviour and social skills
- Accelerated progress in reading, writing and maths
- Increased confidence in the classroom
- Improved attendance
