

This half term our topic is '**Winter Wonderland**'!  
Below is an overview of the areas we shall be exploring this term.

#### **Personal Social Emotional Development**

Through circle time, group and class discussions children will learn to listen and respond to the ideas expressed by others. Children will be encouraged to take turns and independently negotiate and solve problems in class developing their independence and confidence. During circle times we will discuss the importance of looking after our world and caring for the environment.

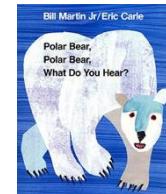

#### **Mathematics**

The children continue to enjoy their daily 'Get Solving' sessions. The children will be continuing to develop their counting and calculating skills. They will learn to apply these skills to solve practical problems, involving, sharing, doubling and halving. Where possible we will use our topic or real life scenarios as the context for the learning.

#### **Literacy; Communication and Language**

The children will learn about different roles and re-enact these roles in our inside and outside role play areas. There will continue to be lots of varied opportunities for writing including: labelling pictures and simple stories. Daily phonics and high frequency word practise will continue to encourage children to use their phonic knowledge to decode words through games and activities. Each week we will focus the learning around a story or non-fiction book. Some of the chosen books include Goodbye Autumn, Hello Winter by Kenard Park, One Snowy Night by Nick Butterworth, Poles Apart by Jeanne Willis as well as Polar Bear, Polar Bear, What Do You Hear? By Bill Martin, Jr.

#### **Phonics**

Children will continue to develop their phonic knowledge through daily phonic activities. During the Spring term, the children will learn twenty-five new graphemes and will continue to use the sounds when decoding words. Children should continue to practise letter sounds and High Frequency Words at home.

#### **What you can could do to help:**

- ✓ Aim to hear your child read every night; ask them simple questions about the book to check their understanding.
- ✓ Practise segmenting and blending the example words shown on the weekly 'Parent Sheet'. You may like to challenge your child by asking them to have a go at writing these words in a sentence using their phonic knowledge.
- ✓ Practise counting and number recognition up to 10 and beyond.
- ✓ Encourage and practise correct letter formation.

## Ash Class – Reception

## Curriculum Overview Spring Term 2022

#### **Physical Development**

We will also be having a **big** focus on letter formation, size and control. We will be encouraging children to 'start' and 'finish' their letters in the correct place. This is essential in reaching the Early Learning Goal for Physical Development: Moving and Handling. Please support us at home by encouraging and practising correct letter formation.

**Understanding the World**

 We will look carefully at the changes in the weather. We will be using a range of books and short videos to help the children to explore and recognise different environments. The children will discuss the similarities and differences between habitats and develop an understanding of why one animal may not survive in a different environment. The children will think carefully about how and why things happen. The children will be able to share some of the things that they have observed as well as have opportunities to show their own interests.

**Expressive Arts and Design**

The children will have different opportunities for exploring and using media and materials. Some of their first challenges will be to create their own wintery self-portrait and Stickman character. Children are going to be encouraged to start representing their own ideas through design and technology, art, music, dance, role play and stories.

**RE**

In R.E. we will explore Bible Stories from the Old Testament, such as; Jonah and the Whale, David and Goliath, Noah's Ark and Daniel and the Lions. We will discuss and discover, 'Why is the word 'God' so important to Christians?'
